CONTADORES

## **About us**

We are a team of professional accountants led by Certified Public Accountant (CPA) Pablo Falcao with solid experience acquired through decades of professional practice in the most recognized international and local consulting firms.

We have led the foundation of our company on this experience, which allows us to exercise our professional work with a clear understanding of our client's needs.

In the current environment of constant tax and accounting changes, our purpose is to provide services and advice of excellence. We know that by keeping a close relationship with those who put their trust in us, we can anticipate their needs and offer them the best solutions.

## **Professional Services | Audit**

*The term "audit" has its etymological origin in the Latin verb "Audire" (hear), because the first auditors in ancient times exercised their function ruling the truth or falsity of that subject to verification mainly by listening.*

The Audit process is the systematic examination of the financial statements of an entity, in order to determine the reasonableness or not of the information contained therein, according to the current rules and criteria.

Auditor's report is the final product of the audit, which allows comparison of economic performance between accounting periods and the precise calculation of tax results.

Our professionals have acquired and developed their experience and knowledge working by the leading international and local audit and consulting firms (such as Deloitte & Co. and Morgan Benedit & Asoc.) With this valuable capital, coupled with our vision of commitment, quality and subsequent analysis, we guarantee professional excellence to our clients.

### **Audit tasks generally performed are:**

Audit of annual Financial Statements

Audit of special Financial Statements

Audit of accounting statements expressed in foreign currency

Audit of consolidated statements

Audit of projected statements

Audit trails

Audit reports

Due Diligence

Special Reports

## **Professional Services | Tax**

Our vision is to offer you a fully integrated service, which includes the analysis, review, advice and ongoing assistance regarding all your tax obligations.

Our extensive knowledge about tax laws and regulations allows us to do it, and our goal is to ensure the maximum tax benefits in any condition or setting to our consultants.

We know how important it is for our clients to fulfill their tax obligations. Our mission is to walk side by side and advise them to achieve that, optimizing their fiscal results together.

### **Our tax services are:**

Tax planning

Development of tax and fiscal obligations determination processes

Elaboration and/or revision of tax returns

Consulting about application of promotion and/or tax exemptions laws

Tax avoidance

Assistance with specific queries

## **Professional Services | Consulting**

In times like these, of constant change in the complex world of economics, technology and business both at the local and global levels, it is of vital importance for companies who want to stay competitive in the markets to keep their strategies updated, as well as refreshing their commercial planning, their technology and the way these are applied.

Our services in this area are mainly directed to optimizing all the processes, mechanisms and operations that are part of the company's daily activities.

Our mission is to work closely connected with our clients, rendering an excellent service to improve their business performance, maximize their profit and offer them the opportunity for growth.

### **Our main services are:**
